We have just had a little insurrection, and even barricades. I should be gratified to see the transporta tion of the mails, as well as every other species of labor rest on the Sabbath. But the Postmaster General is the agent of the public It is his duty to make and carry out, as far as is his power, such mail arrangements as the wishes and interests of the public require. The Department does not set on foot of its own will any Sabbath mails, irrespective of the demands and necessities of the community; and where it is obliged to require such service in compliance with such cannot be indulged in so far as to set aside the known wishes and interests of the pub-

Where the stated means of conveyance on mail routes are kept in operation upon the Sabbath, whether the mails be sent or not, general incovenience, and much individual the mails be despatched by them. In such cases it is unquestionably the duty of the Department to forward the mails on Sunday, When the proprietors are disposed to withdraw these means of conveyance on that day, and there is no likelihood of others being substituted, so as to give facilities to a few to the disadvantage and injury of the many, I take pleasure in accoding to the arrangement so far as the mails are concerned, as has lately been done upon the line of railroad between Albany and Buffalo, following the example ser by the New York and Boston

and the Boston and Albany lines. The means communication are never withdrawn by the proprietors, but upon the Best evidence that the public, or a large majority of it, are willing to dispense with them. And although my own feelings, under the influence of the considerations alluded to in your letter, are gratified by the suppression of the Sabbath mails, my official action in sanctioning it, is founded solely upon the conviction that their withdrawal is in such cases war-

RELIGIOUS NOTICE.—The Right Rev. Bishop Potter, will hold divine service in St. Matthew's Church, Sunbury, on Tuesday morning next at half-past ten o'clock, and in Northumberland at half-past Jackson

We must again apologise to our readers for the want of the usual amount of matter in our paper this week. The election and Sunbur illness among our hands has been the cause. Northu THE RESULT IN THE COUNTY.

The elections in this County have resulted in the election of the democratic nominees, by majorities much reduced as compared with the result in 1844. The majority for Chilisq an alarming manner. THE RESULT AND ITS CAUSES. The result of the elections throughout Jackson the State, will, no doubt, mortify as well as surprise many. 847,431,844 19 THE CHOLERA IN PARIS .- A corresponden of the London News, writing from Paris,

It would appear as if the cholers, which has been making such ravages in the north of Europe, has at length reached Paris. LAWYERS ON KISSING.-The Providence Journal of Monday contains a report of the trial of John Donahue for an assault with at attempt to kiss one Mary Gorman, whom halleges is his second cousin. The Journa says that the evidence gave rise to some very interesting questions of law, especially t young men.

"The counsel for Mrs. Gorman did no contend that the usual proposal to kiss a lady was an assault; but the parties should before proceding to extremities, ascertain beyond any reasonable doubt that the lady would no be unaccommodating, and especially should forbear from such attempts in the presence of a third party. All men, especially young men, would be justified in using reasonable liligence in ascertaining the disposition of the lady under such circumstances, but he must be careful not to press his suit after i became apparent that his fon loss was not reciprocated. Currey, counsel for J. Donahue, did not fully concur with this view of the law, but contended that the transaction was all in good nature, as far as John was concerned-hat Mrs. Corman was his second cousie, and there was no intention of committing an assault on his part.

The Court found John guilte, and fined him \$1 and costs. The fact that Mrs. Gorman was the second cousin of John was not considered a sufficient justification for his persisting in the prosecution of his desire. The court gave no opinion as to what would have been their decision if the parties had been first cousins, or if the kiss had been stolen before the lady had objected. Without meaning to commit ourselves fully on so important a question, we would intimate the opinion that such a state of facts would be a perfect justification."

AN IMMENSE RED OF GOLD .- One hundred miles in extent, has been discovered in Californie, on American Fork and Feather rivers, tributaries of the Sacramento, near Monterey. states that the gold is found in the sands, in grains resembling squirrel shot, flattened out. Some grains weigh an ounce each. It is got by washing out the sand in any vessel, from a tea-sancer to a swarming pan.
